We are so happy you’ve found the Crown Heights Community Mediation Center Resource Directory!

About Us:
The Crown Heights Community Mediation Center staff and volunteers work to make our neighborhood safer and healthier for all. The Center works out of its storefront office on Kingston Avenue as well as throughout the neighborhood. At our office we offer resources, referrals, and youth programs, and in the community, we run youth development and anti-violence programs. The Crown Heights Community Mediation Center is a project of the Center for Court Innovation.

Below are descriptions of a few of our programs.

Save Our Streets Crown Heights (S.O.S. Crown Heights)
S.O.S. Crown Heights works to stop shootings and killings within the Crown Heights neighborhood. The program focuses on several fronts to disrupt violence: S.O.S. Violence Interrupters mediate conflicts on the street; Outreach Workers work with the people most likely to be involved in shooting incidents, trying to change their thinking and behavior; and Hospital Responders meet with the victims of gun violence and their families at the emergency department at Kings County Hospital to prevent retaliation and interrupt the cycle of violence. S.O.S. Crown Heights works closely with neighborhood leaders and businesses to promote a public, community-supported campaign against gun violence. S.O.S. has an ongoing and critical collaboration with local clergy through S.O.S. CAN, in which clergy members assist in mobilizing participation in vigils within 72 hours of an incident, provide counseling, and promote a message of non-violence.

Make It Happen!
Make It Happen! is a program designed to assist young men, ages 16-24, in overcoming challenges related to exposure to violence, poverty, and inadequate role models. Participants are given coaching on their goals and vision for the future. All participants are connected to resources to assist in job readiness and placement, education, housing, and other relevant issues.

Youth Organizing to Save Our Streets (YO S.O.S.)
YO S.O.S. is a youth development program and the youth mobilization arm of S.O.S. Crown Heights. It aims to empower young people to become community leaders and organizers around issues of violence. The program is available to Brooklyn teens, ages 14-17, who are interested in becoming peer educators. Teens from different schools get to know each other, share ideas, and ultimately come up with their own strategies for ending gun violence. In twice weekly experiential workshops, teens focus on self-empowerment, community outreach, and project implementation.

Neighbor Services
With assistance from our AmeriCorps staff, we are able to make referrals for mental health and substance abuse treatment, benefit eligibility and applications, emergency food and housing options, affordable housing, job training programs, and adult education classes. We also host organizations providing free tax assistance, free health-care screenings, and free legal services. We register families for Fresh Air Fund programming and also disseminate general information about the community through our blog, storefront window, and email communications.

Please join us in our efforts to make Crown Heights an even better and stronger neighborhood!
You can join our group of volunteers, communicate with us through Facebook, Twitter, or phone, or come by our office during our open hours. We always have something helpful and new going on at the Mediation Center.

Many thanks to our funders and supporters: the Office of Juvenile Justice and Delinquency Prevention, the New York City Health and Hospital Corporation and the New York City Department of Health and Mental Hygiene, New York City Council Member Al Vann, the New York Community Trust, the New York City Council, the Ostgrodd Foundation, the Cottonwood Foundation and many private donors.

Making the Most of a Visit to a Museum or Cultural Institution

Museums provide a perfect opportunity to learn together. Look at the splash of color in a painting, explore the constellations of the universe from your chair in the planetarium, compose your own music on a synthesizer, or discover why a pendulum swings back and forth.

Remember that you don’t have to be an expert. You don’t have to know the answers to all the questions that your child will ask. That’s part of the fun of exploring a museum – finding out what it is that excites you and your child by sharing, looking, listening, talking, and learning together.

Here are some helpful hints:
• Talk about what you will see in the museum, including some basic information about museums, how objects get there, and why people collect objects.
• “Child-size” your visit and don’t try to see everything in one visit.
• Be flexible and follow your child’s lead. Don’t be surprised if your planned visit to see the dinosaur bones is put on hold because the huge elephant has caught your child’s attention. Let your child enjoy the exhibit at his or her own pace.
• The Information Desk is a good “first stop” once you’re at the museum. There, you’ll find floor plans, materials in foreign languages, self-guided family tour brochures, gallery games and activity sheets, and family workshops and programs.
• Play Museum and Gallery Games
Children of all ages love to play games. Museum games and treasure hunts focus a visit and help to break up the time as you go from exhibit to exhibit. They stimulate your child’s curiosity, sharpen observation skills, and generally make the visit more enjoyable. Here are some games to play:
• I Spy: Have your child find an object in an exhibit and describe it to other family members so that each one can take a turn guessing what the object is.
• Seek and Find: Ask your child to find paintings that have his or her favorite colors, shapes, and objects in them.

Adults: $8; Children (3-17): $5; Seniors (65+): $6.

**What to do if you are the victim of Identity Theft:**

The fastest growing financial crime in the nation, identity theft is when someone uses your personal information, such as your credit card or Social Security number, to obtain something of value. Here is what you should do if you suspect you have been victimized:

1. Report lost or stolen credit, ATM, and debit cards immediately to the credit card company or bank associated with the fraudulent activity. It is important to do this as soon as you discover the fraud – if you wait, you may be found liable for the charges.

2. Immediately call the fraud help lines of each of the three major credit bureaus and tell them to flag your file with a “fraud alert,” including a statement that creditors should call you for permission before opening any new accounts in your name.

3. Report all fraudulent activity to the local police and sheriff departments, and be sure to get a copy of the police report for your records.

4. Have your bank put “stop-payment orders” on any checks that you believe have been stolen. Consider closing out all existing accounts and then opening new accounts with new account numbers.

5. If you believe somebody has used your Social Security number, report to the FederalTrade Commission at (877) 438-4338.

What Can I Do When I Get Angry?
Tips for De-escalating a Conflict:

1. Take a deep breath and count to ten. Give yourself a moment to clear your head of the problem.

2. Ask yourself, “Is this worth it?” Evaluate whether or not you want to get upset over the problem at hand – maybe it’s not worth your emotional energy.

3. Open your ears – try to listen to what the other person is telling you. Once you understand their perspective, you’ll be better able to resolve the issue at hand.

4. Try to keep a calm tone of voice – yelling only makes the situation worse, but a calm tone and neutral language let the other person know that you’re ready to resolve the problem.

5. Be aware of your body language – you may be sending signals that you’re not aware of: rolling your eyes, for example, will definitely escalate the problem. A calm face and body, however, will help bring positive communication and hopefully a resolution.

Resources for Families of Homicide Victims

Sadly, people from all over New York City have lost family members to gun violence. When a life is lost, families want to ensure that their loved one’s name is not forgotten. Many of them stop by our office to find out how they can honor the lives lost by connecting to others in similar situations and even starting their own foundations. In the fall of 2012 the Crown Heights Community Mediation Center decided to create a record of all of the resources that support families’ grieving and rebuilding process.

The list is organized into several sections to categorize organizations, and includes:
- Organizations supporting family members of homicide victims
- Organizations founded by family members of homicide victims
- Support for Starting a Non-Profit
- Resources and support in the grieving process

This listing is a work in progress, so please contact Ariana Siegel at siegelar@crownheights.org or call 718-773-6886 if you know of additional organizations that should be included.

NAC is founded under the premise that they will not let another child to be manipulated and prostituted to do the work of another individual and that another child’s life will be taken before their time. Oresa Napper, Andrell’s mother is survived to make a positive change… a change in choices, a change in lifestyle and a change in outcomes.

The organization was founded with one purpose; to save our children from senseless killings. NAC is committed to changing the mindset of our youth.
